Sangria

The word sangria comes from the Spanish "sangre," (blood) - hence the red color.

The Sangria is made from red wine and all natural, essential fruit oils of orange, lemon, apple, and peach. This refreshing, quaffable red sangria needs no additions except some freshly sliced fruit for garnish. Its perfect balance of fruit, sweetness, and acidity makes the perfect warm weather sipping beverage with notes of red berries and citrus and a light, delightfully tart finish. Serve Chilled!
